

Resort Profile:

Located an hour of Kelowna, this is the place for the best snow. It was awarded the North American family resort of the year in 2006 so it does have a really nice feel about it. The best thing is that it is a real ski in/ski out experience and staff interaction with guests is definitely encouraged, so the are not hidden away! The village takes up to 15000 guests along with 800 staff, so with these numbers you can definitely say Big White is one of the larger resorts, a variety of accommodation is available from chalets, hotels or even full homes. Hostels accommodation is also available at Half Moon Hostel which is located right ton the hill.

To Aussies, it may feel like the coldest place on the face of the earth, in reality Big White is much warmer than most ski resorts in North America. The average temperatures (in Celsius) during the season are as follows: November: -6.5, Dec: -6.7 Jan:-7.3, Feb:-5.1, Mar:-4.1 and April: 0.
