

WHISTLER BLACKCOMB

You have read the articles in the magazines, seen glimpses in the ski and snowboard movies, heard all about it from your friends. Now it is your turn to experience the magic of Whistler. Get ready for the season of a lifetime!

Whistler Blackcomb virtually defines the big-mountain resort scene with the highest vertical, biggest acreage, most glaciers, best glades, a renowned terrain park and, arguably, the world's best mountain bike park. The longest winter season in North America in combination with summer glacier skiing and riding, alpine sightseeing and hiking, and the Whistler Mountain Bike Park make Whistler Blackcomb a year round, world class resort destination.

Whistler Blackcomb is more than just a workplace, it's a lifestyle. As North America's premier resort and Host Venue for the 2010 Olympic and Par-Olympic Winter Games, they continuously re-energize their product and people.

Located just 1.5 hour drive North of Vancouver Whistler Blackcomb is nestled in the coastal mountains and home to over 9000 year round residents. Whistler is an international resort with a home town feeling. What are you waiting for?
